

J.T.M.[®]

Cheese Sauce

Advantages

Compare **J.T.M.'s Cheese Sauces** to our Leading Competitor...

J.T.M.

- Level II Reduced Sodium Cheese Sauce: 209 mg. sodium
- Shelf life (frozen) is 2 years
- Portion size needed to get an M/MA:
2 oz. provides 1 M/MA
4 oz. provides 2 M/MA
- All Cheese Products have a PFS or CN Label
- Cleaner label: Cheese is the first ingredient listed

Leading Competitor

- Reduced Sodium Cheese Sauce:
400 mg. sodium
- Shelf life (shelf stable) is 90 days
- Portion size needed to get an M/MA:
3 oz. provides 1 M/MA
6 oz. provides 2 M/MA

- J.T.M.'s Cheese Sauces are about 30-35% less expensive due to the smaller portion size needed to get an M/MA.
- Our leading competitor's 6 oz. serving of Cheese Sauce makes it challenging to menu a meatless entree like nachos or pasta because the sauce to grain ratio is not proportionate, resulting in grains that are swimming in sauce.
- J.T.M.'s Cheese Sauces ship with any and all other J.T.M. items, making it easier to meet minimum shipping requirements.
