8.0 oz=2.0 M/MA • 1.0 WGR equiv. • 1/4 c. R/O veg

**See reverse for heating and handling information.**

## On-Site Heating (Keep Frozen)

**Preferred method--Steamer:** Place a case of frozen bowls in the steamer on a perforated tray or pan. Heat at 212 degrees F for 25-30 minutes, or until the product reaches the desired serving temperature based on local requirements. Serve or move to a heated holding cabinet until ready for hot service. If a steamer isn't available, then use the dry heat method:

**Convection Oven:** Preheat the convection oven to 350 degrees F, with the fan set on low. Place a case of frozen bowls in the oven on a sheet pan with parchment paper, if available. Heat for 25 to 30 minutes, or until the product reaches the desired serving temperature based on local requirements. Serve or move to a heated holding cabinet until ready for hot service.

---

## At Home Heating From Frozen:

*Instructions are based on heating a single portion bowl from frozen. Note that heating times may vary based on the oven load and/or the quantity of portion bowls being heated at one time.*

**Do not remove the vented film top prior to heating.**

### Conventional Oven:

1. Preheat the conventional oven to 350° F.
2. Place frozen bowls in the oven on a sheet pan.
3. Heat for 25 - 30 minutes, or until the product reaches the desired serving temperature based on local requirements.
4. Carefully remove film from bowl and stir prior to enjoying.

### Microwave Oven (one portion bowl):

1. Place one frozen portion bowl in the microwave (**do not remove the vented film**).
2. Heat on high for 2 to 3 minutes, or until the product reaches the desired serving temperature based on local requirements.
3. Carefully remove the vented film top and stir prior to enjoying.

## At Home Heating From Refrigerated:

*Instructions are based on heating a single portion bowl from refrigerated (stored for no more than 7 days at a temperature between 33° F - 40° F). Note that heating times may vary based on the number of portion bowls being heated at one time.*

**Do not remove the vented film top prior to heating.**

### Conventional Oven:

1. Preheat the conventional oven to 350° F.
2. Place refrigerated bowls in the oven on a sheet pan.
3. Heat for 18 - 22 minutes, or until the product reaches the desired serving temperature based on local requirements.
4. Carefully remove the vented film top and stir prior to enjoying.

### Microwave Oven (one portion bowl):

1. Place one refrigerated portion bowl in the microwave (**do not remove the vented film**).
2. Heat on high for 1 to 2 minutes or until the product reaches the desired serving temperature based on local requirements.
3. Carefully remove the vented film top and stir prior to enjoying.
