Please note that the information above is based on weight checks done by JTM using Vollrath dishes or volumetric cups and a regularly calibrated digital scale. **This information is to be used as a guide only and does not constitute a guarantee in any way.** Please use your own portioning utensils and a regularly calibrated digital scale to determine the serving size that is needed for your program. In some cases, the above stated disher size will provide more than the required CN serving size, as the next smallest disher will NOT meet the required CN serving requirement. Revised 6-30-22
